What are the real threats to jobs?
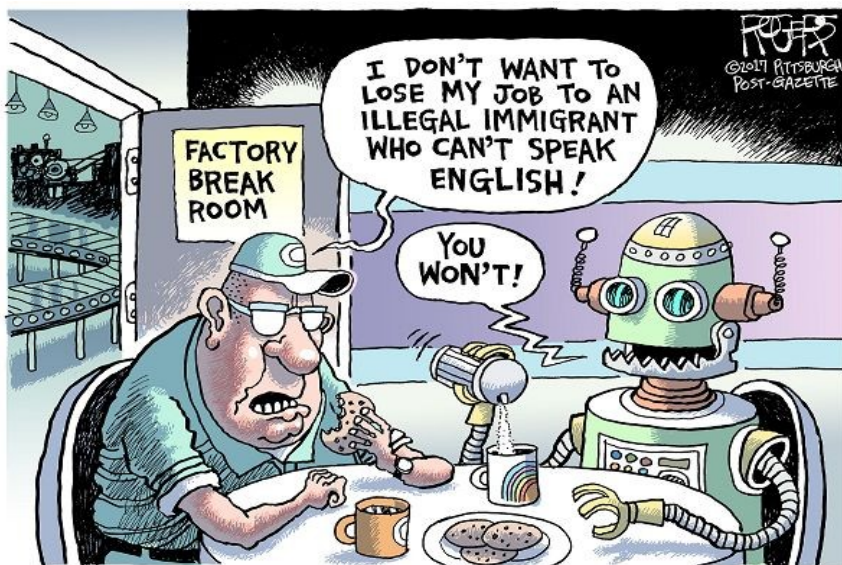

Rob Rogers, Pittsburgh Post-Gazette   / Courtesy of AAEC

Talking Points

1. What do these cartoons say about plans to curb immigration or trade to save American jobs?

2. A recent study predicts automation and sending work offshore will claim 1 in 4 jobs. What jobs are most vulnerable?

3. What jobs are threatened by gains in artificial intelligence?

4. How has technology changed work in the past?

5. What should we do to thrive with technological change?

Between the lines

"Machines are learning to do the jobs of manufacturing workers; artificial intelligence-based tools are mastering the jobs of call-center and knowledge workers." - Professor Vivek Wadhwa
