### Talking Points

1. What are these cartoons saying about U.S. history and the death of George Floyd?
2. What do you know about the history of slavery, Jim Crow laws, lynchings and the civil rights movement?
3. Do you think African Americans are suffering from continuing racism in U.S. justice, economic, health and education systems? Why or why not?
4. Do police need to change their conduct?
5. Could the protests lead to real change in America's treatment of black and brown people?

### Between the lines

"We don't see just a man in a single moment when we look at George Floyd. We see America's entire racial history culminating into that one moment." - South Africa's Mail and Guardian
