My favorite winter memory was when my grandpa makes a huge hill for us to go sledding in his yard. Carissa, Leah, and I have lots of fun going down it alone and even together. Every once in a while our sleds will end up going down the hill without us. We like to go on our bellies and backwards. When we are done we go inside to drink cocoa, it was delicious!

By: Alainis

My favorite winter tradition is ice-fishing because I can catch a fish to mount or keep for eating. If I’m not getting any fish, I can play football on the ice and have pop and food. My favorite place is Lake of the Woods because every time I get a tip-up it’s most likely going to be a big pike. Ice-fishing is my favorite winter activity.

My favorite winter memory was just last Christmas. We were opening gifts with my family. I really wanted a puppy for Christmas, but I knew I probably wouldn’t get one. I was still hopeful. Well, I got a pretty good size package, it was pretty heavy too. When it was my turn to open one of my gifts, I chose that one. I read who it was from, and it was from my grandpa. I ripped it open. Inside was dog treats! It was a joke and a good one too! Everyone laughed. That is my favorite memory.

My favorite winter memory is going sledding with my sisters, my mom, and my dad. My dad and I go snowmobiling with his friends. We have Ski Do snowmobiles and we ride them almost every weekend. We live by a cornfield so when we hit drifts the snow goes into the faces of the people behind me! It is my favorite part of winter!

My favorite winter memory was when my friends Alyssa, Mary, and I went skiing last December. We went down this big hill holding hands. First, Mary fell, so Alyssa and I stopped and helped Mary up. Then I went down on a jump and hurt my ankle. Alyssa did the same, but didn’t get hurt. When we got done we went to McDonald’s and went to the movies. We had a great time! That made me feel so happy because I was skiing with my friends that I don’t really get to see anymore. That is my favorite winter memory.

My favorite winter story memory was when my family and I went to the school forest and I brought my friend Tyrone and also my family went too. We had lots of fun! We skied and went snowshoeing and sledding. We always see deer tracks and some cool trees. The forest is so quiet and peaceful. That’s my favorite winter memory.

By: Michael

My favorite family winter memory was when my mom, dad, grandma, brothers, and I. We swam with dolphins and were able to feed them. Also we went to Nickelodeon. They had all kinds of rides. I think when I’m older I would go there again because there are lots of different things my family and I can do.

By: Marissa

My favorite winter memory is when my grandpa would bring us back up the hill because it is so hard to walk back up. Mason brings his blow up sled and we hit the big bumps. Later we go back to their house and open up Christmas presents. That is my favorite family winter memory.

By: Veronica

My favorite winter memory is Christmas. I like spending Christmas with my family because I like when we all get together, talk, open presents, and spend time together as a family. I also like snowmobiling with my family and going on the trails and stopping to eat somewhere. Those are my favorite winter memories. It makes me feel good when all of my family is together.

By: Tessa

My favorite thing to do during winter time is to play basketball. I enjoy running plays and playing in games. I like to play it all year round because it is fun being very competitive to win, but it’s all about fun. One time, my teammates and I were down by 16 points at half time. We came back in to go into over time and won in overtime by 7! We got third place in that tournament.

My favorite winter memory is snowboarding with my brother, Adrian. We go to the top of this big hill at his school. I borrow his snowboard and we take turns. He usually lets me go first. Sometimes we crash into things because we are going too fast down the hill. Snowboarding with my brother is my favorite winter activity.

By: Shane

My family and I went ice-fishing at Lake of the Woods. On the way there we saw 49 deer and then our trailer’s tire popped and we unloaded all of the stuff in the truck. So we were squished in the truck the rest of the way. When we arrived there was a bunch of water by our fish house. It stormed for two days then the last day my little brother caught a 35 inch, 12 ½ pound Northern. It was so fun to watch my brother pull that fish up! On the way back we saw 213 deer. It was fun!

By: Hunter

My favorite winter activity is ice-fishing because when I go, I have a chance of catching big fish. If they’re not biting, I can do other things on the ice, like play football. I also like going because my uncles sometimes come with us. Also, if I don’t catch a big fish, I can still keep some to bring home and eat. This is why ice-fishing is my favorite winter activity.
